

Dieffenbacher Acquires B Maier Zerkleinerungstechnik

Baden-Württemberg, Germany: Dieffenbacher has acquired 100 percent of B Maier Zerkleinerungstechnik shares. Agreements were signed for B Maier Zerkleinerungstechnik to take over the practical process and the patents of B Maier and AB Anlagenbau for the complete product range of size reduction technology.

Within Dieffenbacher, Maier will be responsible for the engineering of chip preparation systems.

With this acquisition, Dieffenbacher can provide all aspects of a complete production line from its group members. Maier has an excellent reputation in chip and particle preparation systems and is in a position to complement Dieffenbacher's expansion plans.
