## Weihua Fengkai MDF starts up in record time

A record installation and start up time of only 4.5 months was achieved by the Weihua and Dieffenbacher erection and commissioning teams when the first MDF board was produced on 18 September 2009 at the new Weihua Fengkai site in Guangdong Province, P.R. China. This was the 100th Dieffenbacher CPS press line to come on stream worldwide. The CPS press has a width of 9ft and a length of 38m and a designed board capacity of 250,000 cu m MDF/HDF per year. This latest plant has increased the yearly production output of high density and medium density fibre board of the Weihua Group to a total of 1,300,000 cu m.
